

### **www.loistoristeilyt.fi (Drupal 7.x.)**

- ❖ *Work as a Project manager , Coding, communicate with client , understand project requirements, handling team as well.*
- ❖ *Drupal based CMS solution to provide the online cruise booking and content management features.*
- ❖ *For Online Cruise booking, we are using the FIBOS API which provides the XML based SOAP requests and responses.*
- ❖ *Worked with multi-steps forms, field collection module, flexslider, TB social feed, web-forms, generate RSS feed of cruises for third party sites, page caching, Redis, Mailchimp etc.*

### **www.heili.fi ( Joomla! 3)**

- ❖ *Work as a Team leader, communicate with client, understand project requirements.*
- ❖ *It's a simple Joomla based content management front-end that serves the news from the third party back-end.*
- ❖ *It's a multi-site set up built using JMS extension, as we'll add couple of more sites in the near future.*
- ❖ *We're using K2 as our main extension for data modeling.*

### **www.worldwingsuitleague.com (Wordpress)**

- ❖ *Work as a Project manager , Coding, communicate with client , understand project requirements, handling team as well.*
- ❖ *Develop project with the help of Cherry framework, customize template, customize user-pro profile views, create custom plug-ins with short-codes as per client requirements. Integrate Instagram, Facebook, and Twitter APIs.*

### **dekoshop.deko.fi (Magento 1.9.x)**

- ❖ *Work as a Project manager , Coding, communicate with client , understand project requirements, handling team as well.*
- ❖ *Magento based e-commerce solution to provide basic shopping cart features, blocks management etc. features.*
- ❖ *Major features of the application was migration from old site to new site and upgrade Magento community versions periodically.*

- ❖ *Basically the project was developed with Magento 1.3 community version and migrated to 1.8.x community version.*
- ❖ *Now, the latest migration done with 1.9.2.3 version.*
- ❖ *The main website deko.fi is developed with help of Wordpress.*

#### **www.karjalainen.fi (Joomla 1.5 & 2.5 & 3.x)**

- ❖ *Work as a Team leader , Coding & Communication.*
- ❖ *Karjalainen is one of the top most newspaper service in Finland.*
- ❖ *They already had an online solution for the e-version of the newspaper.*
- ❖ *We helped them to migrate their solution to Joomla! open source for effective collaboration & administration.*
- ❖ *We have integrated third party theme ja\_teline with the site and used several third party extensions.*
- ❖ *Major part of the content management is implemented using K2 extension.*
- ❖ *Site supports desktop & mobile version seamlessly.*

#### **pilvi.elisa.fi (Drupal)**

- ❖ *Work as a Team leader , Coding & Communication.*
- ❖ *It's the application developed in Drupal CMS that serves as a front-end for the AppDirect marketplace.*
- ❖ *Although, AppDirect provides its own front-end, but in our case client wanted a complete control over the front-end look and feel and decided to go for custom front-end solution.*
- ❖ *SSO, basic multilingual content management features and interactive interface using Backbone.js are the highlights of this application.*
