Projects

I. ICICI Lombard General Insurance Customization

Worked under ICICI Lombard General Insurance Customization project as a software developer at TATA Consultancy Services Limited.
ICICI Lombard General Insurance Company is one of the largest private sector general insurance companies in India, offering insurance coverage for motor, health, travel home and others.

II. Job Portal

Job Portal web application (Academic Level) using ASP.NET for front End, C#.NET as Code behind page and SQLServer as backend.
This portal is very easy to use, and unlike today's other job portals, jobseeker get notifications only for the jobs matching his/her profile.

III. Sindhu Blood Bank

Designed a web application (Academic Level) using ASP.NET, VB.NET for front end, and SQL Server for backend, which collects data of blood donors, maintains camp schedules and all other information about blood donation.

This web application helps to get information quickly regarding availability of blood of particular blood group.
