Website Development

Hardwork is King of Awesome

Portfolio

Designing

Realistic

It always seems impossible until it is done

"We believe in team work and with team work comes new ideas."

Having team of expert consultants in both designing and development we are able to deliver the job up to mark with quality assurance.

"Nothing is more important than your work atmosphere. We care for everyone who makes our day."

WideVision
TECHNOLOGIES

Skills

"The public is more familiar with bad design than good design. It is, in effect, conditioned to prefer bad design, because that is what it lives with. The new becomes threatening, the old reassuring."

Little Jets,
## Big Problems

SERVICES

iOS

iOS (formerly iPhone OS) is a mobile operating system created and developed by Apple Inc. exclusively for its hardware. It is the operating system that presently powers many of the company's mobile devices, including the iPhone, iPad, and iPod Touch.

Android

Android software development is the process by which new applications are created for the Android operating system. Applications are usually developed in Java programming language using the Android software development kit (SDK), but other development environments are also available.

Web

Web development broadly refers to the tasks associated with developing websites for hosting via intranet or internet. The web development process includes web design, web content development, client-side/server-side scripting and network security configuration, among other tasks.

Portfolio

Our Methodology

Analysis

What ?
How ?
When ?
Where ?
Who ?

We look for these and get what needs to be done

Planning

"A good listner is better than a good speaker"

This help's us to understand client's requirement and accordingly we plan the solution to it.

Solution

A Simle on client's face is the perfect soluiton for the given problem and we work hard to get it done.

Vision

Our Vision is to make client's business strategically strong than his competitors. Developer's passion for providing cutting-edge software development services keeps us ahead from our competitors.

• Marketing •

Research the analysed data and find out what can be done to resolve it.

Follow the correct workflow and develop the concet to resolve the current problems.

RESULT : A Smiling Face
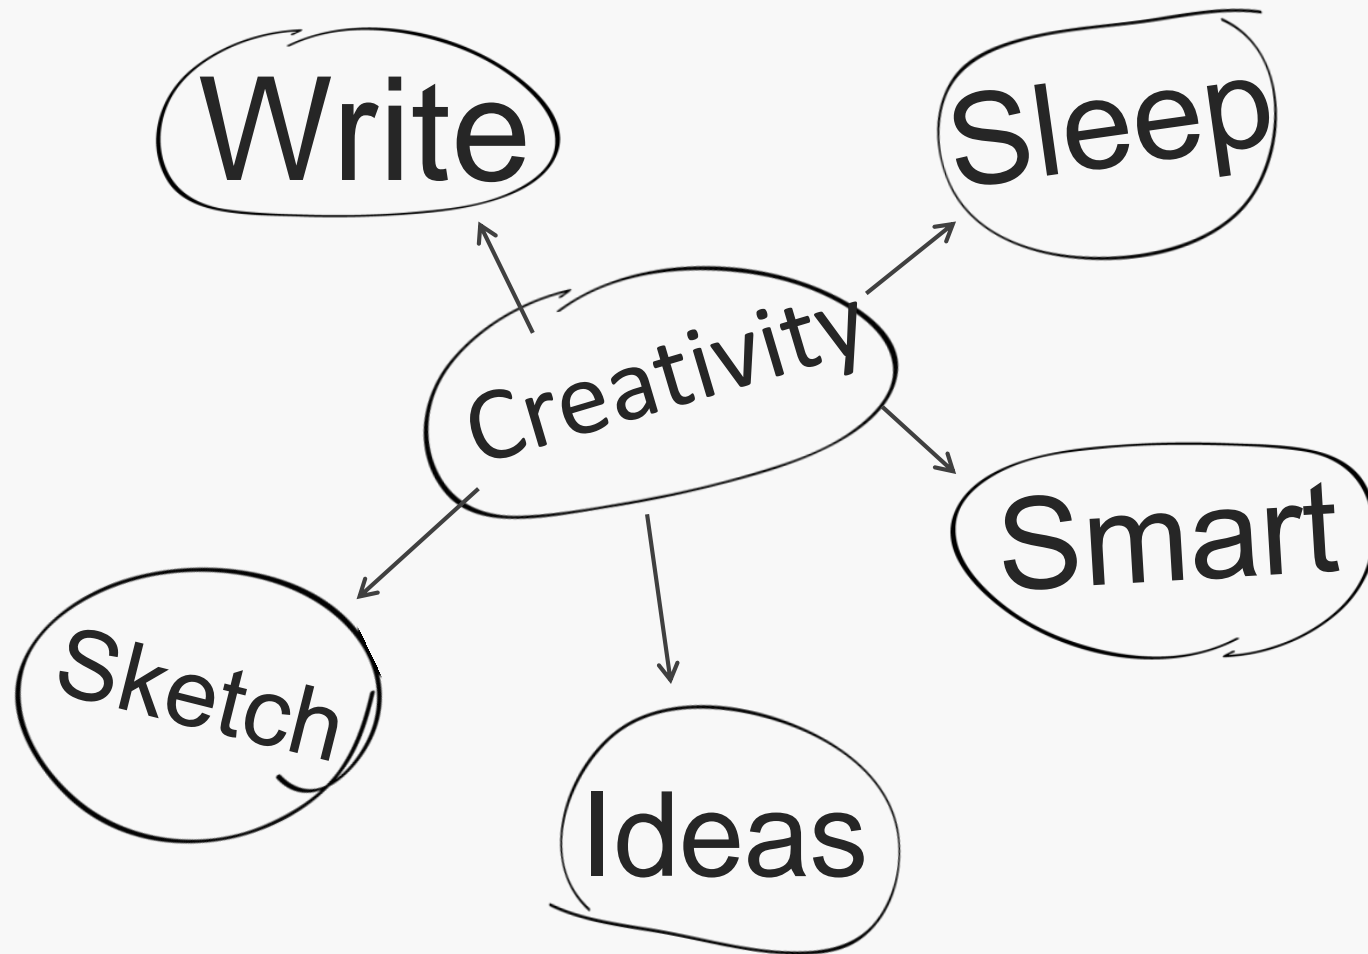

MEET → RESEARCH → SKETCH → CONCEPTS → PRESENT → RESULT!

Analyze the requiement and understand what is asked ? What the problem is ?

Impelement data flow diagrams and check, If it really works or it is just on words.

Present it in such a way that it looks good and stands on clients expectations.

IDEATION

We follow a creative process of generating, developing, and communicating new ideas, where an idea is understood as a basic element of thought that can be either visual, concrete, or abstract.[Ideation comprises all stages of a thought cycle, from innovation, to development, to actualization. As such, it is an essential part of the design process, both in education and practice.
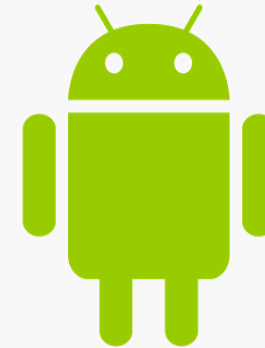

We take care of you & Represent you.

Having 8+ years of industry experience, We are able to work on difference technologies like iOS, Android and Windows for mobile application development and additionally we also work on website development and logo designing.

"There are three responses to a piece of design – yes, no, and WOW! Wow is the one to aim for."

Portfolio
