ABOUT ME

I am a 20 years young UI/UX designer from the oldest technical institute of Asia, Indian Institute of Technology, Roorkee. I have 2 years worth of experience in problem solving through design. Working In different groups of IITR, I have touched each design sub-group. Stories inspire me to be more creative and conclusive towards life's daily problems. Trekking to different places and exploring the core of the cities helps me in understanding different cultures and hence different perspectives.
